

# Coaching Packages and Rates

**Change can be challenging and sometimes you need a little help. Coaching can provide an outside perspective, someone who is there for you 100% during the transition.**

At Biznorth, we will show you how to make the change that you want in your business, personal life or in the way you live. It will take courage and there will be times you will be stretched or tasked with things that will make you feel uncomfortable but the outcome is simply glorious and you will wonder why you hadn't made a change sooner!

We invite you to a 30-minute Discovery Session where we will show you some ways of thinking differently that can have immediate results.
